Announcement of a session on "Corrosion of Archaeological and Historical Artefacts"

EUROCORR
THE ANNUAL CONGRESS OF THE EUROPEAN FEDERATION OF CORROSION
PRAGUE 2027
23TH INTERNATIONAL CORROSION CONGRESS
ICC PRAGUE2027

Don't forget…abstract submission deadline: January 31, 2027!

This session focuses on corrosion phenomena and degradation mechanisms affecting metal artefacts of archaeological, historical, and artistic significance. Contributions addressing the development of protective coatings and preventive conservation strategies for metal artefacts displayed or stored in indoor and outdoor environments are also welcome.

The session aims to bring together corrosion scientists, conservators, and restorers to foster interdisciplinary dialogue and the cross-fertilisation of knowledge, and to advance conservation approaches grounded in a thorough understanding of the underlying corrosion and protection mechanisms.

Particular emphasis is placed on interdisciplinary studies that demonstrate how corrosion science can enhance our understanding of degradation processes in cultural heritage or inform the development of innovative conservation protocols. Such contributions are essential to addressing the challenges of preserving these valuable testimonies to the past for future generations.

Session organisers:

S. Grassini
Politecnico di Torino, Italy
D. Neff
CEA, France
N. Emmerson
Cardiff University, UK

E. Angelini
Politecnico di Torino, Italy

WP 21 – Corrosion of Archaeological and Historical Artefacts

ICC - Corrosion Science and Preservation of Cultural Heritage

Expected duration: 1,5 days

Expected audience: 80 persons
